

Z-BAND

ZHC-Insight

The industry's first remote diagnostic software for Z-Band® RF video distribution systems.

Lighten your workload and eliminate unnecessary site visits with **ZHC-Insight**, the latest technology solution from the experts at Z-Band.

Monitor and manage a **Z-Distribution ZHC** system remotely and securely from any web-enabled device, anywhere.

FEATURES

- /// **Remote Diagnostics** - View status of each connected ZHC device from a desktop, laptop, tablet, or phone
- /// **Notifications** - Set alerts for system changes
- /// **On-Demand & Scheduled Data Pulls** - See the data you want when you want it
- /// **Adjustable Attenuation** - Eliminate on-site manual adjustment
- /// **Role-Based User Permissions** - Grant access at three levels: Super Admin (all access), Admin (limited access), or Technician (read-only access)
- /// **On/Off Pilot Tone** - Ability to adapt to a variety of channel line-ups
- /// **Monitoring** - View RF level on hub inputs and outputs along with approximate distance of connected baluns
